

# Sponsors' Menu

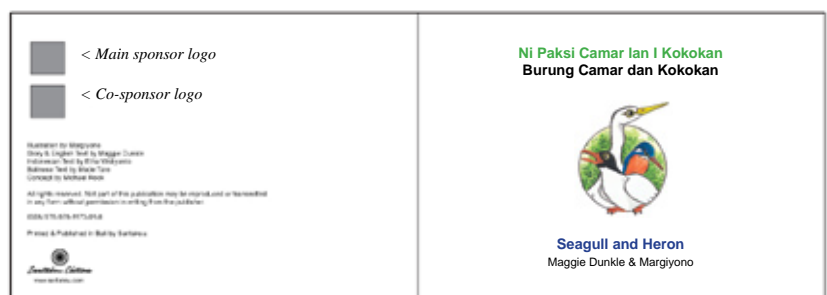

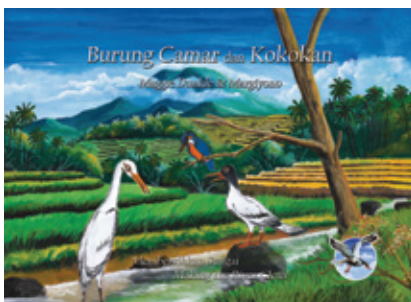

We would like to enlist your support in sponsoring a set of three books: the second edition of the Clean Bali Series Children's books **"Penyu & Lumba-lumba"** and **"Burung Camar & Kokokan"** and the first edition of the third book, **"Rajawali & the Children."**

These stories written by Maggie Dunkle and illustrated by Margiyono, comprise a series of books designed to teach children about caring for the environment. The first book focuses on keeping the beaches of Bali clean, the second involves the birds that dwell in the rivers, dumping grounds for rubbish, and ricefields that have become threatened by development. The last, and third book in the series takes its readers high up to the volcanic mountains of Bali, where the Rajawali, a Crested Eagle, can be seen soaring in the clouds. The great bird, who is most intimate with the island's problems, calls the local children to attend a conference of the birds to find a solution. The children soon realize that it falls upon them to make the changes for a more sustainable future.
